i. Organizational chart

ii. Grievance Redressal mechanism for Faculty, staff and students

Comprising faculty members, administrative staff, and student representatives, the Anti-Ragging Committee is a multidisciplinary body that works collaboratively to prevent and address instances of ragging within the campus premises. The committee operates in accordance with the guidelines and directives set forth by regulatory bodies and the institution itself, aiming to create a culture of respect and dignity.

One of the primary functions of the committee is to raise awareness about the consequences of ragging among students through educational programs and campaigns. By organizing workshops, seminars, and orientation sessions, the committee strives to instill a sense of responsibility and accountability among the student body, promoting a zero-tolerance policy towards ragging activities.

In addition to preventive measures, the Anti-Ragging Committee is actively involved in monitoring and responding to any reported incidents promptly. The committee conducts regular inspections and patrols to identify potential hotspots for ragging, ensuring a swift and effective response to maintain a safe environment for all students.

SRM MADURAI

COLLEGE FOR ENGINEERING AND TECHNOLOGY

Approved by AICTE, New Delhi | Affiliated to Anna University, Chennai

The establishment of this committee underscores the institution's dedication to creating a nurturing space for intellectual and personal growth. It sends a strong message that any form of ragging will not be tolerated, and those found guilty will face severe consequences. By prioritizing the well-being of its students, SRM Madurai College for Engineering and Technology demonstrates its commitment to promotion a positive and inclusive educational experience for all.

i. National Digital Library (NDL) subscription details

Our Institution (PID No: 1-5729671) has been implementing “mandatory internship policy for students” as per model internship guidelines of AICTE will be registered for “National Digital Library Club” (NDLI) with URL:

<https://club.ndl.iitkgp.ac.in/>. The NDL provides the services listed below (link: <https://ndl.iitkgp.ac.in/>).

1. NDLI offers services tailored to the needs of particular user groups, such as exam preparation for high school and college students as well as job seekers.
2. Services are also offered for general learners and researchers. The NDLI provides interface support for the top 10 spoken languages in India and is built to hold content in any language.
3. It is designed to accommodate students of all academic levels, including researchers and lifelong learners, all academic subjects, all widely used access devices, and students with disabilities.
4. It is made to make it easier for academics to conduct interconnected research from many sources and for individuals to benefit from best practices from around the world.
5. The following services are provided in the "Browse" button on the left top side of the NDLI website <https://www.ndl.gov.in/>, by kind, by subject, by source, and by learning resource.

iv. Innovation Cell

Ministry of Education's Innovation Cell (MIC) launched the Institution's Innovation Council (IIC) program in collaboration with AICTE to systematically foster the culture of Innovation and start-up ecosystem in higher education institutions. The primary goal of this council is to inspire, encourage and nurture the young students for different activities involved in pre-incubation, incubation and making successful start-ups.

Our Institution (PID No: 1-5729671) will be registered for on URL: <https://iic.mic.gov.in> for promoting different activities related to the innovation, IPR, start-ups and entrepreneurs. Faculties and students are the members of IIC. The IIC cell conducts quarterly meetings in every quarter to plan the quarterly activities and review quarterly conducted activities. Due to these activities, students get chance to participate in various innovation related initiatives and competition organized by MHRD. Students actively interact with renowned businessman and academicians. They get opportunities to nurture their ideas. DGI's IIC helps students to experiment latest technologies to get some prototype for building their confidence. Overall students get extremely healthy environment right from ideation to start-ups.

v. Social Media Cell

Our Institution (PID No: 1-5729671) is proposed to strengthen the "Social Media Cell" and social media sites where the achievements and upcoming events shall be posted on a regular basis

Outdoor and Indoor Games in the Institution:

x. Teaching Learning Process

It aims to develop a number of qualities in students. These are as follows:

Group & Self-Learning

This is a very effective means towards preparing professionals who are proactive in seeking and acquiring knowledge rather than having it imparted only in the classroom. Free exchange of ideas among the group members through discussions and presentations not only leverages on time and effort but also enhances teaching and communication skills. Aptitude is developed for self-study and use of web resources and data banks to foster lifelong learning.

Problem Solving Exercises

Problem solving is an integral part of the teaching-learning process. Lectures emphasize this aspect

through carefully set, open-ended design problems. Students are organized in small groups where an opportunity is provided to do problem solving, engage in design exercises, and perform information search and processing.

Sustained Disciplined Work

The ability to put in sustained and disciplined hard work over a sufficient length of time is one of the key factors to success in professional life. A typical semester is designed in an intensive and a modular fashion with an emphasis on regular and continuous work. The Evaluation System (see section 3) is designed to encourage this concept.

Self-Learning

In its attempt to move away from teacher-centered learning to student-specific learning, the curriculum will actively encourage self learning. For this purpose 15% of the time allotted to theory and tutorial classes will be specifically earmarked for independent study.

Flexibility in Pace of Learning

The evaluation system makes special provision for different paces of learning for different students. Yet, it attempts to inculcate respect for deadlines. Thus, while specifying a time limit within which tutorial/practical work must be completed, there is scope to submit such work beyond the deadline. However, there will be a small penalty for late submission. The faculty will notify of the penalty for late submission for each tutorial/practical session and also the time up to which late submissions will be accepted.

Quality Consciousness

Students should be aware of the importance of continuous improvement, building zero-defect products and doing quality work. All courses will emphasize on quality as an integral part of teaching. Students will be taught how to test and certify their laboratory work and how to evaluate the worth of theoretical results.

Co-operative Working

Given the complexity of technological problems of today, large teams work together to provide solutions. Thus, it is very important to learn group dynamics and to work in teams. Through co-operative work wherever possible, the Institute will encourage students to learn to select good teams, resolve leadership and group issues and in general, to make effective groups.

As per the National Education Policy (NEP), SRMMCET is at the forefront of aligning with the transformative vision for education in India. A cornerstone of this visionary approach is the directive that every educational institution, including SRMMCET, shall incorporate an inbuilt

mechanism for Social and Emotional Learning (SEL). Recognizing SEL as an indispensable component of education, the NEP emphasizes its pivotal role in shaping individuals holistically.

Social and Emotional Learning extends beyond academic knowledge, focusing on the cultivation of life skills such as empathy, effective communication, and resilience. The inbuilt mechanism for SEL within SRMMCET aligns seamlessly with the broader educational goal of nurturing not only intellectual but also emotional intelligence. This approach acknowledges the importance of equipping students from SRMMCET with the necessary tools to navigate the complexities of the modern world, emotional well-being and interpersonal skills.

Through the integration of SEL into its educational fabric, SRMMCET plays a key role in nurturing socially conscious and emotionally resilient citizens. This holistic educational approach, as envisioned by the NEP, empowers students at SRMMCET to thrive academically, socially, and emotionally, laying the foundation for a more compassionate and empathetic society. In essence, the inclusion of SEL into SRMMCET's educational framework reflects the institution's commitment to producing well-rounded individuals capable of making positive contributions to the world beyond the classroom.

MOUs

- 1. ATAL INCUBATION CENTRE, Anna University INCUBATION Foundation**
AIC-AUIF is one of the premier Incubation Centre in the region identified by NITI Aayog, Govt of India and is engaged, inter-alia, in developing the entrepreneurial ecosystem in the region in diverse areas of Science & Technology.
- 2. Vodafone Intelligent Solutions**
The objective of this MOU is to mutually complement both parties' energies, outreach and efforts to curate opportunities of collaborations, sharing knowledge resources and jointly work on building capacities of the users through the _VOIS for Tech: Learning with Vodafone University Engagement Program.
- 3. VI Micro-System Pvt. Ltd.**
Vi is a business organization engaged in helping the world's leading product manufacturers to develop new products and enhance and sustain current products in hardware and software ranging from Digital home, automotive Infotainment, signal processing Consulting to Embedded applications and automated testing.
- 4. L&T Edutech**
L&T EduTech aims to be a global leader in providing learning and assessment solutions for enhancing employability. It aims to be the preferred choice amongst students, employers, and the workforce, thereby adding value to stakeholders and society at large.
