

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING
REPORT OF THE PROGRAM

27.09.2025

Date & Time of the Event: 27.09.2025 & 02.00 PM.

Event Title	Awareness Program on “sustainable energy and renewable energy”	
Mode of Condition	Offline	
Total No. of Participant	30 Participants (Both II & III Year Students)	
Gist of the Event (Limit 100 Words)	The program witnessed enthusiastic participation from the students of the EEE department, who actively contributed through informative charts and creative poster presentations. Among the participants, III Year students K.Sivasurya and M.Mohana Vibrasha, along with II Year students VS. Harish Kumar and B.Swathisri, played a prominent role in presenting the core themes of the event. Their insightful discussions emphasized the importance of adopting renewable energy and conserving resources for a sustainable future. K.Sivasurya and M.Mohana Vibrasha explained how sustainable energy addresses present needs without compromising those of future generations. They highlighted energy conservation measures, efficiency improvements, and the long-term environmental and economic benefits of sustainable practices in both households and industries. VS.Harish Kumar and B.Swathisri focused on renewable energy sources such as solar, wind, hydro, and biomass. They stressed their inexhaustible nature and significance in combating climate change while reducing reliance on fossil fuels. Their presentations illustrated practical ways of integrating renewable energy into daily life to foster a greener future	
Participants Feedback (50 Words)	Most of the participants recorded that the information received is new to them and it was really useful. Further, they commented that the program was beneficial and they would like to attend this kind of event in the future as well.
