Gist of the event (Limit 100 words)	The Intellectra Association of CSE (AIML) organized an intellectually stimulating event titled “ Technical Debate ” aimed at fostering analytical thinking, communication skills, and awareness of emerging technologies among students. Participants engaged in thought-provoking debates on trending topics such as Artificial Intelligence ethics, automation, data privacy, and the impact of technology on society. The event encouraged students to research deeply, present logical arguments, and counter opposing views with confidence and clarity. It served as an excellent platform for enhancing public speaking skills, teamwork, and the ability to express technical opinions persuasively. The debate created an environment of healthy competition and knowledge sharing, motivating students to stay updated with technological advancements
